EnvironMelt™

the green solution
ice melter with CMA

SAFER TO HANDLE

Easy to use. No protective clothing necessary.

LESS HARMFUL TO VEGETATION

Non-hygroscopic formulation. Won't hurt grass, trees or other vegetation.*

NON-TRACKING

Will not harm carpets and floors. Will not damage leather or footwear.

LESS DAMAGE TO CONCRETE

Reduced damage to wood and concrete makes this one of the safest ice melters.*

EASY DISPERSION

Extended shelf life.

REDUCED CORROSION TO METALS

Anti-corrosion agents reduce damage to vehicles, equipment and other metal surfaces.

*when used as directed

Distributed by:

Anti-Corrosion Formula

CMA (Calcium Magnesium Acetate) is an environmentally benign deicer. Where metal corrosion is a concern, EnvironMelt's™ special formula creates a bond between the surface area and the elements to protect against corrosion.

Fast Acting

EnvironMelt™ combines the most effective deicing ingredients; creating the desired reaction to initiate deicing and meltdown. EnvironMelt™ when pre-applied prevents snow and ice from bonding to the surface area. As EnvironMelt™ goes to work, its time-released formula stays on the surface area longer, helping to control the freeze/thaw cycle.

Health and Safety

EnvironMelt™ is safe to handle without protective clothing. It does not dry out or irritate the skin.*

Non-Tracking

When properly dispensed, EnvironMelt™ minimizes tracking on floors and carpets.

Safer Ice Melter

EnvironMelt™ goes after the ice and snow; clearing the way to safety. This specially formulated product contains "Dolomite" for added traction control; further enhancing performance.

Environmentally Formulated

Nature's own ingredients combine for just the right formula. Unlike some deicers, EnvironMelt™ works to preserve "vegetation and plant life" when used as directed. With EnvironMelt™, there is no slimy residue being tracked in, making clean up virtually non-existent.

Easily Dispersed & Extended Shelf Life

EnvironMelt™ is specially formulated with an anti-caking agent to allow for free-flowing dispersion.

Visually Measured

Not only will you see the quick action of EnvironMelt™ specially coated with "GREEN MELT", going to work on the snow and ice, this product will allow the precise spreading to ensure cost-effective dispersion.
